Summary:

Motivated MCA graduate with hands-on experience in developing responsive, user-friendly web applications using **React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, REST APIs, Fetch API, Git, GitHub, and Vite**. Experienced in building reusable React components, API integration, CRUD applications, responsive UI, and performance optimization. Passionate about writing clean, maintainable code, debugging applications, and collaborating in Agile teams while continuously expanding expertise in the MERN Stack.

Technical Skill:

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design, Cross-Browser Compatibility
- **React Concepts:** React Hooks (useState, useEffect, useRef), Component-Based Architecture, State Management, Conditional Rendering, React Router
- **Core Concepts:** Boolean Logic, String Handling, Form Validation, DOM Manipulation
- **API & Data Handling:** Fetch API, JSON Handling, CRUD Operations, API Integration
- **Tools & Version Control:** VS Code, Cursor, Git, GitHub, Vite, npm, Chrome DevTools
- **Development Practices:** Debugging, Performance Optimization, Reusable Components, Version Control, Problem Solving

Projects:

Restaurant Table Booking System | https://prakashjai1.github.io/Online_Table_Booking_Restaurant/

Tech Stack: HTML | CSS | JavaScript | jQuery

- Developed a **responsive restaurant booking application** using HTML, CSS, JavaScript, and jQuery.
- Implemented **client-side form validation** to improve data accuracy.
- Built a mobile-friendly UI supporting desktop, tablet, and mobile devices.
- Improved code maintainability through modular JavaScript functions.
- Delivered a smooth booking experience with structured user input handling.

Digital Gurukul – Educational Website | <https://digitalgurukul.vercel.app/>

Tech Stack: React.js | Tailwind CSS | React Hooks | Vite | Vercel

- Developed a **React.js + Tailwind CSS** educational platform.
- Designed a responsive interface optimized for desktop, tablet, and mobile devices.
- Implemented component-based architecture for scalability and maintainability
- Deployed the project using Vercel with modern frontend best practices.
- Optimized rendering using React Hooks for a smoother user experience.

Developer Career OS Tracker | <https://developer-career-os-tracker.vercel.app/>

Tech Stack: React.js | Tailwind CSS | React Router | Local Storage | JSON | Vite

- Built a React dashboard with five modules including Skills, Projects, Applications, Notes, and Analytics.
- Implemented complete CRUD operations using React state management and JSON persistence.
- Added **search, filtering, and progress tracking** for enhanced usability.
- Developed reusable UI components following React best practices.
- Implemented JSON import/export for easy data management.

Education:

- **Master of Computer Applications (MCA)**
Shree Ramswaroop Memorial College of Engineering and Management, Lucknow (2023 – 2025)
- **Bachelor of Computer Applications (BCA)**
M.L.K.P.G. College, Balrampur (2018 – 2021)

Certification:

- Frontend Web Development Coding Hackathon – Code Easy Academy (Feb 2026 – Apr 2026)
- Frontend Web Development – Hindi Tech Tutorials (Rajdeep Dhakad)
- Introduction to Data Concepts – IBM SkillBuild
- Introduction to Artificial Intelligence – IBM SkillBuild
