SUMMARY

Frontend Developer and MCA graduate with hands-on experience building responsive, production-ready web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS. Skilled in component-based architecture, REST API integration, and CRUD application development, with four deployed live projects demonstrating clean code, performance optimization, and cross-device compatibility. Quick to learn new tools and eager to contribute to an Agile frontend/MERN stack team.

TECHNICAL SKILLS

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design, Cross-Browser Compatibility
- React Concepts: React Hooks (useState, useEffect, useRef), Component-Based Architecture, State Management, Conditional Rendering, React Router
- Core Concepts: Boolean Logic, String Handling, Form Validation, DOM Manipulation
- API & Data Handling: Fetch API, JSON Handling, CRUD Operations, REST API Integration
- Tools & Version Control: VS Code, Cursor, Git, GitHub, Vite, npm, Chrome DevTools
- Development Practices: Debugging, Performance Optimization, Reusable Components, Agile Collaboration, Problem Solving

PROJECTS

Restaurant Table Booking System [\(Live Demo\)](#)

Tech Stack: HTML | CSS | JavaScript | jQuery

- Developed a responsive restaurant booking application supporting desktop, tablet, and mobile screen sizes.
- Implemented client-side form validation, reducing invalid booking submissions.
- Refactored booking logic into modular JavaScript functions to improve code readability and maintainability.

Digital Gurukul – Educational Website [\(Live Demo\)](#)

Tech Stack: React.js | Tailwind CSS | React Hooks | Vite | Vercel

- Built a fully responsive React.js + Tailwind CSS educational platform optimized for desktop, tablet, and mobile.
- Designed a component-based architecture to support scalability and long-term maintainability.
- Reduced unnecessary re-renders using React Hooks, improving overall UI responsiveness.

Developer Career OS Tracker [\(Live Demo\)](#)

Tech Stack: React.js | Tailwind CSS | React Router | Local Storage | JSON | Vite

- Built a 5-module React dashboard (Skills, Projects, Applications, Notes, Analytics) with full CRUD functionality.
- Implemented state management and JSON persistence via Local Storage so data survives page refreshes.
- Added search, filtering, and progress-tracking features to improve day-to-day usability.

Movie Search & Details [\(Live Demo\)](#)

Tech Stack: HTML5 | CSS3 | JavaScript | Fetch API | REST API

- Built a movie search application using HTML, CSS, and JavaScript with REST API integration.
- Implemented dynamic movie search functionality using the JavaScript Fetch API, with a details page for the selected movie.
- Created a responsive and user-friendly interface for searching and exploring movies.

EDUCATION

Master of Computer Applications (MCA)

Shree Ramswaroop Memorial College of Engineering and Management, Lucknow | 2023 – 2025

Bachelor of Computer Applications (BCA)

M.L.K.P.G. College, Balrampur | 2018 – 2021

CERTIFICATIONS

- Frontend Web Development Coding Hackathon – Code Easy Academy (Feb 2026 – Apr 2026)
- Frontend Web Development – Hindi Tech Tutorials (Rajdeep Dhakad)
- Introduction to Data Concepts – IBM SkillBuild
- Introduction to Artificial Intelligence – IBM SkillBuild
